

# January Classroom Times

## PRESCHOOL

**Mrs. Honchell & Ms. Williams**

### Welcome 2018!

It's a new year and Winter is here! Bundle up your preschooler to learn about this chilly season and its animals before we shoot into learning about outer space. We will head back to Earth just in time to talk about healthy habits!

### Art Center

Snow globes, winter gear, and water colors will be exciting to make and experiment with this month!

### Library Center

Books about winter animals, space exploration, and staying healthy will be on our shelves to focus on winter and health vocabulary!

### Dramatic Play

We are stocking the kitchen with fruits and vegetables as we discuss how to stay healthy and our new years resolutions! There will also be a warm winter wardrobe students can use when we visit different winter animals... not to mention for the cold celestial spaces we will travel to when we learn about the intergalactic!

This month we will be making pancakes, coloring, and singing Happy Birthday with our sweet Grandfriends!

And don't forget, **NO SCHOOL** on Monday, January 15<sup>th</sup>!
